

# Jennifer Kumpf

for your next

## D10 President

***“Clear, Sensible Leadership”***

AMDA Delegates of District 10:

I am asking you elect me, Jennifer Kumpf, as your next OSSTF District 10 President. The decision to take on this challenging **leadership** opportunity follows a **clear** and purposeful path. The following is a summary of what I offer each member of our District:

As your current Treasurer, I have proposed **clear, sensible budgets** to our Executive and Council members during my term. I took on this role during a time of personal change, while maintaining my commitments to the position and our District throughout my parental leave and upon my return. As Treasurer, I have learned over the past two years from consulting and working alongside other experienced OSSTF leaders. When there are questions, I am able to provide **clear, sensible answers** that demonstrate understanding of the broader OSSTF organization.

Additionally, I have acted as our District’s Status of Women and Human Right’s Officers. Within two D10 Branches I have also served as Branch President, Vice President, and Anti-Harassment Officer, providing members with **clear communication and sensible representation**, as required. Holding these positions has also provided me the opportunity to attend and represent D10 at a variety of provincial, regional, and local conferences, training, and events for the past decade, such as: Educational Services, Status of Women, Human Rights, and Summer Leadership annual provincial conferences; Symposiums, Collective Bargaining Committee meetings, and Pre-AMPA meetings at the regional level; and annual Branch President’s Training, many General Membership and Status of Bargaining meetings, and protests/rallies at the local level. I have also been selected to represent D10 members at both AMPA and AMDA for a number of years. This diversity of OSSTF experience has provided me a long-term, **clear and sensible knowledge of OSSTF**.

But a president is not elected solely by a checklist of past experiences. Additionally, will bring to you **leadership** that is thorough, direct, and holds our employer accountable to its actions, while remaining caring and dedicated to our D10 members. I don’t hesitate to address conflicts and issues, but do so with compassion for teachers. I believe we have a strong working relationship with our board, which I will work hard to sustain and develop further. I will continue to work toward personal and professional development, and effective collaboration, in order to achieve continued engagement and success for D10 and our members.

A vote for Jennifer Kumpf is a vote for **clear, sensible leadership**.

Respectfully,  
Jennifer Kumpf

OSSTF/FEESO
