

Greg Sheeler- Candidate for Treasurer- OSSTF District 10

My name is Greg Sheeler and I am honoured to have served as Vice-President and Executive Officer on the District Executive of OSSTF District 10 for the past 8 years.

During my many years of teaching I have been a steadfast and active supporter of the OSSTF. At the Branch level I have served as Collective Bargaining Committee representative, Treasurer, Vice-President and Branch President- keeping my local members informed about OSSTF information and initiatives- hearing their concerns, protecting their interests and discussing their issues at the District level.

At the District level, as mentioned, I have been a member of the District Executive for eight years serving as Vice-President and Executive Officer. During my time at the District Executive I have served on many committees including the Finance and District Appeals as well as serving as the Human Rights Executive Liaison. Each task was undertaken with dedication and attention to detail- I served as I would expect to be served.

I also am a strong believer in commitment to community. I have spent years coaching youth in baseball and basketball at the school and community level. I have served on the Sarnia Rebound Advisory Council and on the Wyoming Minor Baseball Executive. I firmly believe that young and older have a duty to serve in their community and to assist their fellow community members.

I ask for your support in this election for Treasurer. As stated, I have been a member of the Finance Committee since my first year on District Executive and have been actively involved in establishing all budgets and financial reports. I will strive to continue the excellent financial stewardship of District 10 and commit to continued balanced budgets with additions to our reserve funds. The District must continue to focus on both short-term and long-term financial goals to prepare for future financial decisions and impacts.

I consider the responsible managing of OSSTF District 10 funds and the establishment of financial goals to be one of the most important roles of the District Executive. If chosen I will strive to continue to demonstrate the dedication, the listening approach and the hard-working attitude I have tried to exemplify for the past several years.
