The 'Pathways' to Leadership for Women in OSSTF/FEESO Handbook

To: Presidents and All Members

From: Harvey Bischof, President

For Information

The 'Pathways' document, for women and women-identified members, is a product of the OSSTF/FEESO Provincial Status of Women Standing Committee. This resource has three goals: identifying the potential pathways to leadership for women in their union, suggesting the skills, attributes, and responsibilities these pathways might require and illuminating the resources that OSSTF/FEESO provides for members that can facilitate their pursuit of leadership.

This resource also recognizes that every woman's experience will be different, depending on the nature of their job class, worksite, Bargaining Unit and District. The Committee's hope is that the document will inspire more women to learn about the numerous ways they can get involved in their union and make a difference.

Limited paper copies of this document were distributed to all Presidents or their designates who attended the November 2017 meeting of Provincial Council. This resource is also available on the website in both English and French on the Equity page:
