Method of Pay (as outlined in Article L11.06.1 – Part B of the Collective Agreement)

“Salary paid to Members leaving the employment of the Board or beginning an unpaid leave of absence during the school year shall be pro-rated on the basis of days worked over the total number of working days in the school year. Any salary owing will be paid no later than the following pay period.”

- For members going on leave within the school year, there will be a reconciliation of pay received to days worked. Each day is calculated at $1/194 \times \text{Salary}$
- The total number of paid working days in each school year is 194 ($194/194 = 100\%$)
