

## Registration is now open !!

The Ontario Teachers' Federation is pleased to announce another season of learning through OTF Connects. From November to June 2024 our newest series of OTF Connects webinars will feature tips and tools, by teachers, for teachers, to support you and your students.

Our webinar series provides you with free, effective professional learning, accessible from a distance, across multiple types of devices. You will leave each session with strategies and tools you can transfer to your own learning context.

The 2023-24 season will focus on three key areas:

1. Anti-racism, equity, diversity and inclusion (EDI)
2. Mental health and wellbeing
3. Revised Curriculum in Ontario
